15:00-16:00 Chris Shepherd (IOP): "Challenges facing Physics Teachers in England and what the IOP is doing to help"

Physics teachers in England face a number of challenges. These include the poor uptake of the subject among girls, the restricted supply of physics teachers, and the piecemeal interventions by the government in the curriculum. Chris will describe how the Institute has had some success in improving these through intervention projects, marketing, mentoring schemes and a curriculum guidance forum. Chris will also describe early work on an IOP holistic teacher registration and development system as a means towards creating a vibrant physics teacher community.
